About Generic Viagra Medicine

- Having erection trouble from time to time isn't necessarily a cause for concern. If erectile dysfunction is an ongoing issue, however, it can cause stress, affect your self-confidence and contribute to relationship problems.
- If you're concerned about erectile dysfunction, talk to your health care expert.
- In other cases, medications or other direct treatments might be needed.
- Generic Viagra is used to treat erectile dysfunction (ED).
- The generic name for Viagra is sildenafil, and Viagra is a brand name.
- This blue pill helps to improve and maintain an erection by increasing blood flow to a specific organ.
- Many healthcare experts' prescription medicines offer these benefits and include the same active components as brand-name medicines.
- [Buy Generic Viagra online](#) is available in form of oral tablets.
- People take it in a dosage of 25, 50, or 100 milligrams (mg).

Working And Functions Of Generic Viagra Medicine

- It usually varies from person to person.
- It mostly starts functioning after 30 minutes.
- Its effects continue for 4-6 hours.
- Take advice from your healthcare expert if your erection hurts or lasts more than hours.

Precautions

- This medicine's effectiveness or speed of metabolic enzymes can be hindered by eating a substantial meal or consuming many high-fat foods before taking it.
- So, it is metabolized alongside your meal, this may potentially lengthen its duration.
- Smoking or drinking alcohol can reduce blood flow to your specific organ, making it less effective or long-lasting.

The following changes may be helpful for those with erectile dysfunction:

- Eating a balanced diet
- Maintaining a healthy body weight
- Engaging in regular exercise
- Quitting smoking
- Avoiding too much alcohol and illicit drug use
- Seeking help for emotional issues
